21 NCAC 19 .0613 STUDENT/TEACHER RATIO AND EQUIPMENT

(a) For electrology, at least one instructor per 12 students, or fraction thereof, shall be in attendance at all times when students are engaged in clinical work. The school shall provide the necessary equipment, which was documented and approved in its school certification, for each student and client.

(b) For laser, at least one instructor per 12 students, or fraction thereof, shall be in attendance at all times when students are engaged in clinical work. A skills attained checklist that matches current curriculum requirements in Rule .0601(b) of this Section shall be completed and signed off on by the instructor for each student. The school shall provide the necessary equipment, which was documented and approved in its school certification, for each student and client.
