

01 NCAC 30E .0102 POLICY

It is the policy of the SBC to evaluate designers for capital improvement projects as defined in G.S. 143-135.27 based on criteria contained herein. Further, it is considered of paramount importance that every state capital improvement project receive a professional design which is timely, of highest professional quality, and in keeping with the project scope. It is to this end that individual designer's or consultant's performance on state capital improvement projects should be fairly and consistently evaluated and used as a factor in designer or consultant selection for future work.
