

15A NCAC 02S .0502 ABATEMENT OF IMMINENT HAZARD

If the Division determines from factors such as chemical concentrations, exposure pathways, and receptors that contamination or conditions at a site constitute an imminent hazard as defined in G.S. 143-215.104B(b)(16), the Division shall require the development and implementation of a plan to abate the imminent hazard. Actions taken to abate the imminent hazard may include alternate sources of drinking water, soil excavation, vapor mitigation, and well abandonment.
