

15A NCAC 02T .1204 APPLICATION REQUIREMENTS

(a) The requirements in this Rule shall apply to activities not deemed permitted under Rule .1203 of this Section.

(b) For new and modified sources of CCPs:

- (1) site plans or maps shall be provided to the Division by the applicant, depicting the location of the source;
- (2) an analysis of the CCPs shall be provided to the Division by the applicant. The analysis shall include all pollutants identified in Rule .1205 of this Section. If the CCPs are to be used in a land application, the analyses shall also include nutrients and micronutrients; and
- (3) a sampling/monitoring plan that describes how Rule .1205 of this Section shall be complied with shall be provided to the Division by the applicant.

(c) For uses of CCPs not already approved by the applicant's or permittee's individual permit, information shall be provided to the Division by the applicant that describes and explains site-specific engineering or institutional controls proposed to prevent adverse impacts to public health and the environment.

(d) For the use of CCR for land application with greater than 12,400 tons of CCP to be applied to a single site, documentation shall be provided to the Division by the applicant, showing that environmental releases to groundwater, surface water, and soil are comparable to or lower than those from analogous products made without CCR, or that environmental releases to groundwater, surface water, or soil will be at or below relevant regulatory and health-based benchmarks for human and ecological receptors during use.

(e) Information listed in Paragraph (c) of this Rule shall not be required if a permit from the Division has been issued to the source of CCPs that addresses the use of CCPs at sites where the CCPs are used for bedding.

History Note: Authority G.S. 143-215.1; 143-215.3(a);
Eff. September 1, 2006;
Readopted Eff. September 1, 2018.
