

(a) Utility lines for the purpose of this General Permit are any pipes or pipelines for the transportation of potable water, domestic sanitary sewage, natural gas, and any cable, line, or wire for the transmission, of electrical energy, telephone and telegraph messages, and radio and television communication.

(c) The utility line crossing shall not adversely affect a public water supply intake.

(e) Permittees shall allow authorized representatives of the Department of Environmental Quality to make inspections at any time to ensure that the activity being performed under authority of the General Permit set forth in this Section is in accordance with the terms and conditions prescribed herein.
