

(a) The applicant must contact the Division of Coastal Management and request approval for structural replacement, dune reconstruction, or maintenance excavation.

- (1) the site location, dimensions of the project area including shoreline length, a description of the repair, replacement, reconstruction, or maintenance excavation needed, and his or her name and address. In the case of structural replacements, any additional documentation confirming the existence of the structure prior to the hurricane or tropical storm, such as surveys, previous permits, photographs or videos; and
- (2) Description of the extent of repair, replacement, reconstruction, or maintenance excavation needed, including dimensions and shoreline length.

(d) No work shall begin until a meeting is held with the applicant and a Division of Coastal Management representative to review the proposed development. A permit to proceed with the proposed development may be issued during this meeting if the Division representative finds that the application meets all the requirements of this Subchapter.

(f) Authorizations under this General Permit shall not be issued more than one year following each activation by the Secretary of this general permit.
