If it is determined that the resident's privileges or licenses would have been suspended under G.S. 113, the resident's licenses, rights, and privileges to hunt, fish, or trap in North Carolina shall be suspended pursuant to Article 22B of G.S. 113 for the same period as imposed by the WVC member state where the violation occurred.

SECTION .1500 - EVIDENCE

15A NCAC 10A .1501 SUMMARY DISPOSITION

The Executive Director or his or her designee may determine the summary disposition of fish or wildlife seized by the Commission. Summary disposition shall be determined in accordance with G.S. 113-137(d), on a case-by-case basis, taking into consideration factors that may include public health and safety, conservation objectives of the Commission, and the health or genetic integrity of native wildlife resources. Summary disposition may include release, relocation, or euthanasia.

History Note: Authority G.S. 113-137;
Eff. August 1, 2019.

15A NCAC 10A .1502 REPLACEMENT COSTS OF WILDLIFE

(a) For the purpose of this Rule, "replacement cost" means the monetary amount to replace a specimen of wildlife that has been taken, injured, removed, harmfully altered, damaged, or destroyed. As specified in G.S. 113-267, this term shall be broadly construed to include indirect costs of replacement if direct stocking or replacement is not feasible, including the costs of habitat improvement or restoration, the establishment of sanctuaries, and any other recognized conservation technique.

(b) The following factors shall be considered when determining replacement costs:

- (1) whether the species has a season for take;
- (2) whether the species is classified as endangered, threatened, or special concern;
- (3) the relative frequency of species occurrence in the State;
- (4) the extent of existing suitable habitat for the species within the State;
- (5) the unique habitat requirements of the species;
- (6) the cost of acquiring, by purchase or long-term lease, lands and waters for habitat development;
- (7) the cost of improving and maintaining suitable habitat for the species on lands and waters owned or acquired by the Commission;
- (8) the cost of live-trapping the species in areas of adequate populations and transplanting them to areas of suitable habitat with low populations;
- (9) the availability of replacement specimens and the cost of acquisition for restocking species in the wild;
- (10) the cost of propagating and rearing the species in captivity or a hatchery and the cost of transporting them to an area with suitable habitat;
- (11) the ratio between the natural life expectancy of the species and the period of its probable survival in the wild when having been reared in captivity;
- (12) the consumer price index; and
- (13) any other factor that gives value to the species.

(c) Based on the factors in Paragraph (b) of this Rule, the following scheduled amounts shall represent the estimated replacement cost of an individual wildlife specimen. Replacement costs are per individual for wildlife species and per inch for fish species unless otherwise noted:

(d) The following factors shall be considered when determining the costs of an investigation conducted pursuant to G.S. 143-215.3(a)(7) or by court order for the purpose of determining the cost of replacement of wildlife:

- (1) the time expended by the employee conducting or involved in the investigation, including travel time between the place of usual employment and the site of the investigation, and the time required in formulating and rendering the report;
- (2) the total compensation cost of service to the state for each employee involved, including annual salary, total insurance, and the state's contribution to social security taxes and to the applicable retirement system;
- (3) subsistence costs for the investigating personnel, including meals, reasonable gratuities, and lodging, when required;
- (4) the cost of all necessary transportation;
- (5) the use or rental equipment or vehicles, when required;
- (6) the cost of cleaning, repairing, or replacing any clothing damaged, soiled, or contaminated by conducting the investigation; and
- (7) any other expense directly related to and necessitated by the investigation.

(e) In assessing the cost of time expended in completing the investigation, the time expended by each person required to take part in the investigation shall be recorded in hours, the value of which shall be computed according to the ratio between the annual costs of service of the employee and his or her total annual working hours 2087 hours reduced by holidays, annual leave entitlement, and earned sick leave. Other costs shall be assessed as follows:

- (1) the actual cost of meals, reasonable gratuities, and lodging away from home, not to exceed the current maximum per diem for state employees at the time of the investigation;

15A NCAC 10B .0105 MIGRATORY GAME BIRDS

(a) Cooperative State Rules:

- (1) The waters of the Atlantic Ocean, and those coastal waters south of US 64 that are separated by a distance of at least 800 yards of open water from any shore, island or marsh are designated as a special hunting area for the taking of sea ducks (scoter, eider, and long-tailed duck).
- (2) Tundra swans may be taken during the open season by permit only subject to annual limitations imposed by the U.S. Fish and Wildlife Service. Based upon the annual limitations imposed by the U.S. Fish and Wildlife Service, the Wildlife Resources Commission shall issue nontransferable swan permits to applicants who will be selected at random by computer. Only one swan shall be taken under each permit which shall be cancelled at the time of the kill by cutting out the month and day of the kill. Accompanying the permit is a tag which must be affixed to the swan at the time and place of the kill. The tag must be affixed in accordance with instructions provided with the permit. In addition, a preaddressed post-paid card is supplied to each permittee on which to report the number of days hunted and the details of the kill if made. Hunting swans without having the permit and the tag in possession or to possess a swan without the cancelled permit in possession and the tag affixed in accordance with instructions provided with the permit to the swan is prohibited. Possessing a swan permit or tag while hunting that was assigned to another person or to alter the permit or tag in any way other than cutting out the proper month and day of kill is prohibited.

(b) Notwithstanding the provisions of G.S. 113-291.1(a) and (b), the following restrictions apply to the taking of migratory game birds:

- (1) No migratory game bird may be taken:
 - (A) With a rifle;
 - (B) With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, to limit its total capacity to not more than three shells.
 - (C) From or by the use of a sinkbox or any other type of low floating device affording the hunter a means of concealment beneath the surface of the water;
 - (D) With the aid of bait, or on, over, or within 300 yards of any place where any grain, salt or other feed is exposed so as to constitute an attraction to migratory game birds or has been so exposed during any of the 10 consecutive days preceding the taking, except that this Part shall not apply to standing crops, flooded croplands, grain crops shocked on the field where grown, or grains found scattered solely as the result of normal agricultural planting or harvesting;
 - (E) With the aid of live decoys, or on, over or within 300 yards of any place where tame or captive migratory game birds are present, unless such birds are and have been for a period of 10 consecutive days prior to such taking confined within an enclosure which eliminates the audibility of their calls and totally conceals them from the sight of wild migratory game birds.
- (2) Crippled waterfowl may be taken from a motorboat under power in those areas described, delineated, and designated as special sea duck hunting areas in Subparagraph (a)(1) of this Rule.
- (3) In that area of Roanoke Sound adjacent to and immediately Northeast of Roanoke Island as marked by buoys designating the waterfowl rest area, it is unlawful to harass or take any waterfowl.
- (4) The area east of US 17 is designated as the September teal season zone.

(c) For tundra swan and Canada goose seasons where a permit is required to hunt by Memorandum of Agreement with the U.S. Fish & Wildlife Service, hunter questionnaires shall be completed online at www.ncwildlife.org, or on the Commission-supplied, preaddressed, postage-paid cards. Questionnaires shall be completed by or postmarked no later than April 1 following the end of the applicable season.

(d) Failure to return the questionnaire and any required animal parts, by this date shall make the individual ineligible to receive a permit as referenced in Paragraph (c) for the following applicable season.

15A NCAC 10B .0106 WILDLIFE TAKEN FOR DEPREDACTIONS

(a) Depredation permits shall authorize the taking, destruction, transfer, removal, transplanting, or driving away of undesirable, destructive, or excess wildlife or wildlife resources as specified in this Rule.

(b) Depredation permits shall not be required for the owner or lessee of a property to take wildlife while committing depredations to that property; however, the manner of take, disposition of dead wildlife, and reporting requirements specified in this Rule shall apply.

(c) No permit shall be issued to take endangered or threatened species of wildlife listed under 15A NCAC 10I, except alligators, by reason of depredations to property. Only the Executive Director or his or her designee may issue depredation permits for Special Concern species listed in 15A NCAC 10I .0105 and for alligators.

(d) An individual may take an endangered or threatened species in immediate defense of his or her own life or of the lives of others without a permit. Any endangered or threatened species that may constitute a demonstrable but non-immediate threat to human safety shall be reported to a state or Federal conservation Officer or employee who is designated by their agency, who, upon verification of the report, may take or remove the specimen as provided by 15A NCAC 10I .0102(h)(1).

(e) No permit may be issued for the taking of migratory birds and other federally-protected animals unless a current Federal Depredation Order applies to a species or a corresponding, valid U.S. Fish and Wildlife Service depredation permit, if required, has been issued.

(f) Depredation permits may be issued for taking of wildlife resources in circumstances of overabundance or when the wildlife resources present a danger to human safety. Cities, as defined in G.S. 160A-1(2), seeking a depredation permit pursuant to these circumstances shall submit to the Commission the following information:

- (1) the name and location of the city;
- (2) the acreage of the affected property;
- (3) a map of the affected property;
- (4) the signature of an authorized city representative;
- (5) the nature of the overabundance or the threat to public safety; and
- (6) a description of previous actions taken by the city to ameliorate the problem.

(g) Depredation permits for other species may be issued for taking wildlife that is or has been damaging or destroying property, provided there is evidence of property damage.

(h) Depredation Permits shall:

- (1) be prepared on a form supplied by the Commission;
- (2) only be issued by authorized employees of the Commission or licensed Wildlife Control Agents (WCA);
- (3) have an expiration date;
- (4) name the species allowed to be taken;
- (5) include limitations on age, sex, type of depredation, location of animal or damage, and local laws;
- (6) be issued to a landholder or an authorized representative of a unit of local government for depredations on public property;
- (7) be used only by individuals named on the permit;
- (8) authorize the possession of wildlife resources taken under the authority of the permit; and
- (9) be retained as long as the wildlife resource is in the authorized individual's possession.

(i) Individuals taking wildlife resources under the authority of a depredation permit shall comply with the conditions of the permit and the requirements specified in this Rule.

(j) The following shall apply to manner of take:

- (1) Wildlife taken without a permit while committing depredations to property may, during the open season for the species, be taken by the landholder by any lawful method. During the closed season, such depredating wildlife may be taken without a permit only by use of firearms or archery equipment as defined in 15A NCAC 10B .0116.

- (2) Wildlife taken under a depredation permit may be taken only by the method or methods authorized by the permit. When trapping is authorized, in order to limit the taking to the intended purpose, the permit may specify a reasonable distance from the property sought to be protected, within which the traps shall be set. The Executive Director, Commission employee, or WCA may also state in a permit authorizing trapping whether or not bait or lure may be used and the type of bait or lure that is authorized based upon factors such as type of depredation, locations of animal or damage, and local laws. In addition to any trapping restrictions that may be contained in the permit, the method of trapping shall be in accordance with the requirements and restrictions imposed by G.S. 113-291.6 and other local laws passed by the General Assembly. No depredation permit shall authorize the use of poisons or pesticides in taking wildlife except in accordance with the provisions of the North Carolina Pesticide Law of 1971, G.S. 143, Article 52, the Structural Pest Control Act of 1955, G.S. 106, Article 4C, and G.S. 113, Article 22A. No depredation permit shall authorize the taking of wildlife by any method by any landholder upon the lands of another except when the individual is listed as a second party on a depredation permit.
 - (3) Any landholder, with or without a depredation permit, or second party on a depredation permit shall not intentionally wound a wild animal in a manner that will not cause its immediate death as suddenly and humanely as the circumstances permit.
- (k) The following shall apply to the disposition of wildlife taken:
- (1) Except as provided by Subparagraphs (2) through (7) of this Paragraph, any wildlife killed without a permit while committing depredations shall be buried or disposed of in a safe and sanitary manner on the property where taken. Wildlife killed under a depredation permit shall be buried or otherwise disposed of as stated on the permit.
 - (2) Wildlife killed under a depredation permit may be transported to an alternate disposal site. Anyone in possession of carcasses of animals being transported under a depredation permit shall have a copy of the depredation permit in his or her possession.
 - (3) The edible portions of feral swine and deer may be retained by landholder for consumption but shall not be transported from the property where the depredations took place without a valid depredation permit. The landholder may give a second party the edible portions of feral swine or deer taken under a depredation permit. The receiver of the edible portions shall hold a copy of the depredation permit. The nonedible portions of any deer carcass, including head, hide, feet, and antlers, shall be disposed of as specified in Subparagraph (1) or (2) of this Paragraph or turned over to a Commission employee for disposition.
 - (4) Any fox killed under a depredation permit may be disposed of as described in Subparagraph (1) or (2) of this Paragraph or, upon compliance with the fur tagging requirements of 15A NCAC 10B Section .0400, the carcass or pelt may be sold to a licensed fur dealer.
 - (5) The carcass or pelt of any furbearing animal killed during their open season for control of depredations to property, whether with or without a permit, may be sold to a licensed fur dealer provided that the person offering such carcass or pelt for sale has a valid hunting or trapping license. Bobcats and otters may only be sold upon compliance with any required fur tagging requirement set forth in 15A NCAC 10B .0400.
 - (6) Wild animals in the order Carnivora, armadillos, groundhogs, nutria, and beaver shall be humanely euthanized either at the site of capture or at a facility designed to humanely handle the euthanasia, or such wild animals must be released on the property where captured with permission from the landholder. Feral swine shall be euthanized while still in the trap in accordance with G.S. 113-291.12. Animals transported or held for euthanasia shall be euthanized within 12 hours of possession. Anyone in possession of live animals being transported for relocation or euthanasia under a depredation permit shall have a copy of the depredation permit in his or her possession. When the relocation site is public property, written permission shall be obtained from the local, State, or federal official authorized to manage the property before any animal may be released.
 - (7) The edible portions of bear may only be retained by the landholder for consumption but shall not be transported from the property where the depredations took place without a valid depredation permit. The landholder may give a second party the edible portions of a bear taken under a valid depredation permit. The receiver of the edible portions shall hold a copy of the depredation permit. The complete carcass of a bear taken without a depredation permit and nonedible portions of any bear carcass, including head, hide, feet, claws, and internal organs, from a bear taken under a valid depredation permit shall be disposed of as specified in Subparagraph (1) or (2) of this Paragraph or turned over to a Commission employee for disposition.

(l) Any landholder who kills an alligator; coyote in the counties of Beaufort, Dare, Hyde, Tyrrell, or Washington; deer; Canada goose; bear; elk; or wild turkey under a valid depredation permit shall report the number and species of animal killed upon the expiration date of the depredation permit to the Wildlife Resources Commission on the form provided with the permit, or through the website link provided on the permit.

SUBCHAPTER 10C - INLAND FISHING REGULATIONS

SECTION .0100 - JURISDICTION OF AGENCIES: CLASSIFICATION OF WATERS

15A NCAC 10C .0101 SCOPE AND PURPOSE

The following rules pertain to the classification of the waters of North Carolina as coastal fishing waters, inland fishing waters, and joint fishing waters. These rules are adopted jointly by the Marine Fisheries Commission and the Wildlife Resources Commission. In addition to the classification of the waters of the State, these joint rules set forth guidelines to determine which fishing activities in joint fishing waters are regulated by the Marine Fisheries Commission and which are regulated by the Wildlife Resources Commission. Finally, the joint rules set forth special fishing regulations applicable in joint fishing waters that can be enforced by officers of the Division of Marine Fisheries and the Wildlife Resources Commission. These regulations do not affect the jurisdiction of the Marine Fisheries Commission and the Wildlife Resources Commission in any matters other than those specifically set out.

History Note: Authority G.S. 113-132; 113-134; 113-136;
Eff. February 1, 1976;
Amended Eff. January 1, 1977;
Readopted Eff. September 1, 2022.

15A NCAC 10C .0102 INLAND FISHING WATERS

Inland fishing waters are all inland waters except private ponds and all waters connecting with or tributary to coastal sounds or the ocean extending inland from the dividing line between coastal fishing waters and inland fishing waters agreed upon by the Marine Fisheries Commission and the Wildlife Resources Commission. All waters that are tributary to inland fishing waters and that are not otherwise designated by agreement between the Marine Fisheries Commission and the Wildlife Resources Commission are inland fishing waters. The regulation and licensing of fishing in inland fishing waters is under the jurisdiction of the Wildlife Resources Commission. Regulations and laws administered by the Wildlife Resources Commission regarding fishing in inland fishing waters are enforced by wildlife officers.

History Note: Authority G.S. 113-129; 113-132; 113-134;
Eff. February 1, 1976;
Amended Eff. January 1, 1977;
Readopted Eff. September 1, 2022.

15A NCAC 10C .0103 COASTAL FISHING WATERS

Coastal fishing waters are the Atlantic Ocean, the various coastal sounds, and estuarine waters up to the dividing line between coastal fishing waters and inland fishing waters agreed upon by the Marine Fisheries Commission and the Wildlife Resources Commission. All waters that are tributary to coastal fishing waters that are not otherwise designated by agreement between the Marine Fisheries Commission and the Wildlife Resources Commission are coastal fishing waters. The regulation and licensing of fishing in coastal fishing waters is under the jurisdiction of the Marine Fisheries Commission; except that inland game fish exclusive of spotted seatrout, red drum, flounder, white perch, yellow perch, weakfish, and striped bass are subject to regulations by the Wildlife Resources Commission in coastal fishing waters. Regulations and laws administered by the Marine Fisheries Commission regarding fishing in coastal fishing waters are enforced by marine fisheries inspectors. Regulations regarding inland game fish in coastal fishing waters are enforced by wildlife officers, unless otherwise agreed to by the Wildlife Resources Commission.

Joint fishing waters are those coastal fishing waters, denominated by agreement of the Marine Fisheries Commission and the Wildlife Resources Commission pursuant to G.S. 113-132(e) as joint fishing waters. All waters that are tributary to joint fishing waters and not otherwise designated by agreement between the Marine Fisheries Commission and the Wildlife Resources Commission are classified as joint fishing waters.

15A NCAC 10C .0105 POSTING DIVIDING LINES

The dividing lines of all major bodies of water and watercourses which are divided by the agreement of the Marine Fisheries Commission and the Wildlife Resources Commission so that portions of the same are constituted inland fishing waters, coastal fishing waters, or joint fishing waters shall be marked with signs insofar as may be practicable. Unmarked and undesignated tributaries shall have the same classification as the designated waters to which they connect or into which they flow. No unauthorized removal or relocation of any such marker shall have the effect of changing the classification of any body of water or portion thereof, nor shall any such unauthorized removal or relocation or the absence of any marker affect the applicability of any regulations pertaining to any such body of water or portion thereof.

Dogs may not be trained or permitted to run unleashed from March 15 through June 15 on game lands located east of I-95, except when participating in field trials sanctioned by the Wildlife Resources Commission. Additionally, on game lands located west of I-95 where special hunts are scheduled for sportsmen participating in the Disabled Sportsman Program, dogs may not be trained or allowed to run unleashed during legal big game hunting hours on the dates of the special hunts. A field trial shall be authorized when the field trial does not conflict with other planned activities on the game land or field trial facilities, and the applying organization demonstrates their experience and expertise in conducting genuine field trial activities. Entry to physical facilities, other than by field trial organizations under permit, shall be granted when they do not conflict with other planned activities previously approved by the Commission and they do not conflict with the mission of the agency.

(g) Trapping. Subject to the restrictions contained in 15A NCAC 10B .0300, trapping of furbearing animals, armadillos, coyotes, and groundhogs is permitted on game lands during the open trapping seasons for those areas, established by rule. Foxes may be trapped on game lands from October 1 through the end of February in a county with an open fox trapping season that falls between October 1 and the end of February. Foxes may not be taken by trapping on game lands in counties with a closed fox trapping season or during a fox trapping season that occurs outside the dates of October 1 through the end of February. Additionally, fox trapping is allowed on game lands in Clay, Graham, Henderson, Macon, and Tyrrell counties with a daily bag limit of two and a season bag limit of 10 from the first to the fourth Saturday in January. Trapping is prohibited:

- (1) on the J Robert Gordon Field Trial Area of Sandhills Game Land;
- (2) in posted "safety zones" located on a game land;
- (3) by the use of bait on the National Forest Lands bounded by the Blue Ridge Parkway on the south, US 276 on the north and east, and NC 215 on the west;
- (4) on the DuPont State Forest Game Lands; and
- (5) from April 1 through September 31.

At a trap, trappers may use a single bait site of grain, fruit, or other foods when trapping if the food is not a processed food product as defined in G.S. 113-294(r), is less than 3 cubic inches and is covered to prevent it from being seen from above. Feathers, including those with attached skin or entire bird wings, hair with or without skin or hide, and bones that include no attached meat, organs, or viscera do not need to be covered.

(h) Vehicular Traffic. No person shall drive a motorized vehicle on a game land except on roads constructed, maintained, and opened for vehicular travel and on trails posted for vehicular travel, unless the person:

- (1) is driving in the vehicle gallery of a scheduled bird dog field trial held on the Sandhills Game Land; or
- (2) is a disabled sportsman as defined in Paragraph (l) of this Rule or holds a Disabled Access Program Permit as described in Paragraph (l) of this Rule and is abiding by the rules described in Paragraph (k).

(i) Camping.

- (1) No person shall camp on a game land except on an area posted by the landowner for camping.
- (2) On game lands owned by the State of North Carolina, where the North Carolina Wildlife Resources Commission is the primary custodian, the maximum period of consecutive overnight camping at a designated camping area is 14 days within any 30-day period, unless otherwise specified in rules of this Subchapter. After 14 consecutive days of camping, personal belongings shall be removed from the game land.
- (3) A hunting, fishing, trapping or Game Lands License is required for individuals age 16 or older to camp on game lands in areas posted for camping except when camping within 100 yards of the Roanoke River on the state-owned portion of the Roanoke River Wetlands Game Land, within 100 yards of the Neuse River on that portion of the game land west of NC-43, and in posted areas along the Mountains-to-Sea Trail on Butner-Falls of Neuse Game Land.

(j) Release of Animals and Fish. It is unlawful to release pen-raised animals or birds, wild animals or birds, domesticated animals, except hunting dogs and raptors where otherwise permitted for hunting or training purposes, or feral animals, or hatchery-raised fish on game lands without written authorization. It is unlawful to move wild fish from one stream to another on game lands without written authorization. Written authorization shall be given when release of animals is determined by a Wildlife Resources Commission biologist not to be harmful to native wildlife in the area and is in the public interest or advance the programs and goals of the Wildlife Resources Commission.

(k) Non-Highway Licensed Vehicles. It is unlawful to operate motorized land vehicles not licensed for highway use on game lands except for designated areas on National Forests. Disabled persons as defined in Paragraph (l) of this Rule and people

who have obtained a Disabled Access Program permit are exempt from this restriction but shall comply with the terms of their permit. Furthermore, disabled persons, as defined under the federal Americans with Disabilities Act (42 U.S.C. 126) may use wheelchairs or other all-terrain wheelchairs on areas where foot travel is allowed. Off road vehicles including ATVs, UTVs, and ebikes are not permitted.

(l) Disabled Access Program. Disabled individuals who meet the requirements of G.S. 113-296 may obtain a Disabled Access Permit and Disabled Sportsman Hunt Certification online at ncwildlife.org. The Disabled Access Permit allows individuals to operate electric wheel chairs, all-terrain vehicles, and other passenger vehicles on any Commission-maintained road open for vehicular travel and those trails posted for vehicular travel and ungated or open-gated roads otherwise closed to vehicular traffic on game lands owned by the Wildlife Resources Commission and on game lands whose owners have agreed to that use. Those game lands, or parts thereof, where this Paragraph applies are designated online, at www.ncwildlife.org. This Paragraph does not permit vehicular access on fields, openings, roads, paths, or trails planted for wildlife food or cover. One companion, who is identified by a companion card issued to each qualified disabled person, may accompany a disabled person to provide assistance, provided the companion is constantly in visual or verbal contact with the disabled person. The companion may participate in lawful activities while assisting a disabled person, provided license requirements are met. A vehicle used by a qualified disabled person for access to game lands under this provision shall have the Disabled Access Permit available for inspection by wildlife enforcement officers upon request. Hunters who qualify under the Disabled Sportsman Program and their companions may access special hunting blinds for people with disabilities during regularly scheduled, non-permit hunting days on a first come basis, except for those blinds located on the Restricted Area of Caswell Game Land. It is unlawful for anyone other than disabled persons holding a Disabled Access Permit, during waterfowl season, to hunt within 100 yards of a waterfowl blind designated by the Wildlife Resources Commission as a Disabled Sportsman's hunting blind. The Disabled Sportsman Hunt Certification allows individuals to apply for available Disabled sportsman permit hunting opportunities as prescribed in G.S. 113-296.

(m) Public nudity. Public nudity, including nude sunbathing, is prohibited on game lands, including land or water. For the purposes of this Section, "public nudity" means a person's intentional failure to cover with a fully opaque covering the person's genitals, pubic area, anal area, or female breasts below a point from the top of the areola while in a public place.

(n) Shooting Ranges. On public shooting ranges managed by the Commission, no person shall use designated shooting ranges for purposes other than for firearm or bow and arrow marksmanship, development of shooting skills, or for other safe uses of firearms and archery equipment. Other uses, including camping, building fires, operating concessions or other activities not directly involved with recreational or competitive shooting are prohibited, unless written authorization is obtained from the Commission. No person, when using any shooting range, shall deposit debris or refuse on the grounds of the range. This includes items used as targets, except that clay targets broken on the range, by the shooter, may be left on the grounds where they fall. No person shall shoot items made of glass on the grounds of the range. No person may leave a vehicle or other obstruction in a location or position that it will prevent, impede, or inconvenience the use by other persons of any shooting range. No person shall leave a vehicle or other object parked in a place on the shooting range other than the place or zone that is designated and posted or marked as an authorized parking zone. No person shall handle firearms or bow and arrow on a shooting range in a careless or reckless manner. No person shall intentionally shoot into any target holder, post, or other permanent fixture or structure while using a shooting range. No person shall shoot a firearm in a manner that would cause rifled or smoothbore projectiles to travel off of the range, except that shotgun shot, size No. 4 or smaller may be allowed to travel from the range if it presents no risk of harm or injury to a person. Persons using a shooting range shall obey posted range safety rules and those persons who violate range safety rules or create a public safety hazard shall leave the shooting range if directed to by law enforcement officers or to leave by Commission employees. No person shall handle firearms on a shooting range while under the influence of an impairing substance. The consumption of alcohol or alcoholic beverages on a shooting range is prohibited. Open days and hours of operation shall be designated on signs and at least one sign shall be posted at the entrance to each shooting range. No person, when using a shooting range, shall do an act that is prohibited or neglect to do an act that is required by signs or markings placed on the area under authority of this Rule for regulating the use of the area.

(o) Limited-access Roads. During the months of June, July, and August, roads posted as "Limited-access Roads" are open to motorized vehicles from 5:00 a.m. to 10:00 p.m. These roads shall be posted with the opening and closing times.

(p) No person shall attempt to obscure the sex or age of a bird or animal taken by severing the head or any other part thereof, or possess a bird or animal that has been so mutilated.

(q) Baiting. Except as provided in Paragraph (g) of this Rule, no person shall place, or cause to be placed on a game land, salt, grain, fruit, or other foods without written authorization from an agent of the Commission. Written authorization may be provided for Commission authorized projects or Commission contractors to meet specific objectives. Except as authorized by rule, no person shall take or attempt to take wild birds or wild animals attracted to these foods.

The companion may participate in lawful activities while assisting a disabled person, provided license requirements are met. A vehicle used by a qualified disabled person for access to game lands under this provision shall have the Disabled Access Permit available for inspection by wildlife enforcement officers upon request. It is unlawful for anyone other than disabled persons holding a Disabled Access Permit, during waterfowl season, to hunt within 100 yards of a waterfowl blind designated by the Wildlife Resources Commission as a Disabled Sportsman's hunting blind. 15A NCAC 10G .0402 APPOINTMENT OF WILDLIFE SERVICE AGENTS

(a) Any business operating from a fixed location in North Carolina may apply to the Commission for appointment as a Wildlife Service Agent by completing an application provided by the Commission.

(b) Application. Applications for Wildlife Service Agent appointment shall contain the business name, address, county where the business is located, agent contact information, bank account information, business hours, and any other information requested by the Commission that is reasonably necessary to determine the fitness of the applicant to serve as a Wildlife Service Agent.

(c) Qualifications and Requirements. Applicants shall meet the following qualifications in order to be appointed as a Wildlife Service Agent.

- (1) Businesses shall operate from a fixed location in North Carolina and shall sell a minimum of one thousand dollars (\$1,000) in transaction sales annually. This minimum requirement may be waived by the Executive Director if he finds the applicant's services necessary to maintain adequate agent services to the public in that geographic area.
- (2) An applicant shall have a minimum of one year's experience in operating the business for which the application is made or other equivalent business experience or training. In those cases where other equivalent business experience or training is accepted in lieu of the minimum one year's experience, the applicant shall submit financial statements of the business so that the solvency of the business can be judged.
- (3) Applicants shall provide a bank account for the purpose of transferring net proceeds from all Wildlife Service Agent transactions to the Commission's account in the State Treasury every week via an electronic transfer of funds.

(d) The qualifications as provided by Paragraphs (b) and (c) of this Rule shall be met prior to appointment. Failure to comply with the qualifications and requirements as provided by Paragraph (c) of this Rule, throughout the term of the appointment, may result in termination of the agent appointment. 15A NCAC 10G .0405 WILDLIFE SERVICE AGENT TERMS AND CONDITIONS

(a) A Wildlife Service Agent's appointment and service is subject to the following terms and conditions:

- (1) Public Service. Wildlife Service Agents shall serve all persons seeking assistance with matters related to the duties of a Wildlife Service Agent.
 - (2) Training. New Wildlife Service Agents shall attend a training session at a location specified by the Commission prior to activation of agent status and prior to receiving any equipment or supplies from the Commission.
 - (3) Activation of Agent Status. Upon completion of training and receipt of equipment and supplies, Wildlife Service Agents shall have their equipment set up and ready for operation 10 days after the date they receive the equipment and supplies.
 - (4) Application. Each Wildlife Service Agent shall notify the Commission of any changes to the original application for appointment such as business name, address, agent contact information, bank account information, business hours and other information related to agent appointment, within five business days of its change.
 - (5) Business Change of Ownership, Location, or Management. If the ownership of the business, location or management changes, then the Agreement becomes null and void. Written notice of any change in ownership, location, or management shall be sent to the Commission at least 10 days prior to the change along with an application for a new Wildlife Service Agreement, if desired, pursuant to the rules in this Section.
 - (6) Cancellation. A Wildlife Service Agent may cancel the Agreement at any time by sending written notice to the Commission. The Commission shall instruct resigning agents on the procedures for returning all equipment and supplies and to settle their account. Upon resignation of appointment as a Wildlife Service Agent, the former agent must return all consigned equipment and supplies to the Commission and settle the agent financial account within 10 days of the resignation letter's date.
- (b) Suspension. The Commission shall temporarily suspend any Wildlife Service Agent appointment for:
- (1) Failure to deposit sufficient funds one or two times to cover the electronic transfer of funds each week.
 - (2) Failure to operate as a public convenience as specified in the Agreement one or two times.
 - (3) Failure to provide proper and correct information one or two times about wildlife transactions and related issues to customers as documented by customer complaints or agency inspections.
 - (4) Failure to submit or return all required documentation for transactions as outlined in the Agreement one or two times.

Temporary suspension is effective immediately upon communication of that fact to the Wildlife Service Agent. Such communication shall state the grounds for temporary suspension and that the agent may request a hearing within 5 working days if he contests the grounds for temporary suspension. If the initial notification is not in writing, it shall be followed by written notice of temporary suspension containing the same information. If the Commission determines it is necessary to protect State property, an employee of the Commission may enter the premises and impound all property and supplies issued or entitled to by the Commission such as equipment, moneys, record books, reports, license forms, other documents and materials pertinent to the agent being suspended. The Commission must make the impounded property, or copies of it, available to the agent during the period of temporary suspension. If a hearing is requested, it shall be before the Executive Director or his designee and shall be held at a location specified by the Executive Director.

Temporary suspension remains in effect until the hearing. A temporary suspension may not last longer than 30 days, but additional suspensions may be imposed if, at the end of the suspension period, the agent has not corrected the deficiency or deficiencies that resulted in the suspension. A Wildlife Service Agent may at any time after a hearing appeal his suspension to the Commission. A new suspension shall comply with the provisions of this Paragraph.

(c) Termination. The Commission shall terminate any Wildlife Service Agent appointment for any of the deficiencies listed below unless it determines that such deficiency may be corrected, is not likely to be repeated during the term of the current agreement, and not maintaining the Agent Agreement will result in insufficient Commission services to the public in the area served by the Agent. Deficiencies that may result in termination include:

- (1) Failure to comply with the terms and conditions as outlined in the wildlife service agreement.
- (2) Failure to deposit sufficient funds three or more times to cover the electronic transfer of funds each week.
- (3) Failure to meet the minimum transaction sales requirement of one thousand dollars (\$1,000) annually.
- (4) Failure to operate as a public convenience as specified in the Agreement three or more times.
- (5) Failure to provide proper and correct information three or more times about wildlife transactions and related issues to customers as documented by customer complaints or agency inspections.
- (6) Failure to submit or return all required documentation for transactions as outlined in the Agreement three or more times.

Notice of termination of the appointment may be sent to the Wildlife Service Agent in lieu of or in addition to temporary suspension. The notice must state the grounds for termination of the appointment and the agent's right to a hearing if he has not previously been afforded one. If the appointment is to be terminated, the notice must state the effective date and hour of termination. If the agent has not been previously afforded a hearing, the agent is entitled to a hearing within 14 days before the Executive Director or his designee to be held at a location specified by the Executive Director. If the Executive Director upholds the decision to terminate the appointment, an agent may appeal his termination to the Commission. Pending the hearing and any appeal from it, the termination is held in abeyance, but no transaction may be made once the agent's termination effective date and time have passed.

Upon termination of appointment as a Wildlife Service Agent, the former agent must return all consigned equipment and supplies to the Commission and settle the agent financial account within 10 days of the date of receiving written notice from the Commission. Employees of the Commission may conduct inspections and audits when terminating an agent.

The Executive Director or his designee holding any hearing under this Paragraph must keep a written record of evidence considered and findings made. Upon appeal to the Commission, the Commission Chairman or another presiding officer must cause such a written record of evidence and findings to be made and kept.

No person denied appointment or whose appointment was terminated under this Paragraph may apply again for an appointment as a Wildlife Service Agent for two years. Upon application, the Commission may not grant the appointment as a Wildlife Service Agent unless the applicant produces evidence, convincing to the Commission, that he meets all standards and qualifications and will comply with all requirements of statutes and rules pertaining to Wildlife Service Agents.

(d) Use of customer identifying information. Customer identifying information for customers of the Commission is protected by G.S. 143-254.5. Wildlife Service Agents shall not disclose any customer identifying information to any third party without written authorization of the Commission. Wildlife Service Agents shall not use such customer identifying information for any purpose other than the processing of Commission transactions requested by the customer. Failure to abide by provisions in this Paragraph is grounds for termination of the agency.
