

15A NCAC 18A .0605 DELIVERY WINDOW OR SHELF

(a) A delivery window or a non-corrosive shelf shall be installed between the shucking area and packing area. If a delivery window is used it shall be equipped with a shelf completely covered with smooth, non-corrosive metal or other impervious material and shall be sloped to drain towards the shucking area.

(b) No shuckers or individuals that are not designated as packers by the owner or responsible individual shall be allowed in the packing area.
