10A NCAC 05D .0103 BUDGET REVISIONS

(a) The following policies and procedures shall govern all proposed budget revisions of Older Americans Act programs and other grantees or contractors under the Division of Aging.

(b) Conditions Requiring Budget Revisions. During the operation of Older Americans Act or other assisted projects, various aspects of program operation shall require flexibility to adapt to changes. For example, fluctuations in the anticipated rate of expenditures may occur or additional funds may be received from various sources. These types of changes may require an approved budget revision. The requirements for approval of a budget revision depend on the title under which funds are provided and the type of grantee or contractor involved. The following conditions shall apply:

- (1) Title III
 - (A) Revisions in a contractor's individual service budget under an approved area plan shall be approved by the AAA. This approval is sufficient if the change does not modify the total budgeted amount of each specific service, i.e., the change only modifies categories within the service budget but not the total amount of the service budget. However, if the total amount of the service budget will be changed, the AAA shall submit a budget change request to the Division of Aging for its approval.
 - (B) If the AAA has been granted approval to provide direct service, a proposed change in the total budget for that service component shall require Division of Aging approval while a change that is only internal and does not affect the total may be approved by the AAA. In addition, such approval is subject to G.S. Chapter 159, North Carolina's Local Government Fiscal

Control Act which requires that all budget revisions shall be approved by the AAA's board of directors. Auditors and Division of Aging monitors shall check board meeting minutes to verify compliance with this requirement.

- (C) Any proposed change in the use of funds provided for planning and administration functions shall be approved by the Division of Aging. This provision applies to both internal or total budget changes.
- (2) Title V, and State Funds. Any proposed change in the use of Title V or state provided funds shall require Division of Aging approval. This provision applies to both internal and total budget changes.
- (c) Budget Revision Request Submission and Approval Procedures
 - (1) Submission. Budget revision requests shall be submitted to the Division on the prescribed form.
 - (2) Review. The Division of Aging shall review allowable budget revision requests and respond to the grantee submitting the request within 30 calendar days after receipt of the request. In reaching a decision on whether to approve a request, the request shall be reviewed by appropriate staff. During review of the request, additional information may be required from the project grantee.
 - (3) Approval
 - (A) If a budget revision request is approved which changes an award document program activities total, a revised award document shall be issued. The grantee must sign this new award document before the request is officially approved.
 - (B) If a budget revision request is approved which does not change an NGA program activity only a copy of the budget request form shall be returned to the grantee.
 - (C) If the request is not approved, the grantee shall be notified by letter.
 - (4) Timing. Budget revision requests shall be received by the Division of Aging at any time except during the last 60 days of the budget year. Funds to be affected by a budget revision shall not be expended according to the provisions of the request until it is approved.

(b) Program Amendments

- (1) Conditions Requiring Program Amendments
 - (A) Whenever a "substantive" change in the content or administration of an area plan is proposed, the area plan shall be amended according to the provisions of this Section.
 - (B) A "substantive" change is one in which:
 - (i) a new or amended state or federal statute or regulation requires a new provision, or conflicts with any existing plan revision;
 - (ii) a U.S. Supreme Court decision changes the interpretation of a statute or regulation;
 - (iii) the area agency proposes to change the designation of the single organizational unit or component unit;
 - (iv) the area agency proposes to add, substantially modify, or delete any area plan objective(s); or
 - (v) the Division of Aging requires further annual amendments.

(c) Program Changes

- (1) Conditions Requiring "Program Changes." A "program change" occurs with any one of the following:
 - (A) Transfer to a third party, by contract or other means, of the actual performance activities which are central to carrying out the basic purpose or purposes of the award and not merely incidental. It does not include purchases of supplies, materials or equipment, general or incidental support services, or activities whose cost is treated as an indirect cost;

- (B) A change in the project director or any other key people named in the award document or the desire to permit any such people to devote substantially less effort to the project than was indicated in the approved project application;
- (C) A change in recipient of award.
- (2) Procedures for Submitting Proposed Program Changes. Grantees who wish to make "program changes" shall submit a request for approval of the proposed program change to the Division of Aging. The request shall be in the form of a letter from the grantee agency director specifying the following:
 - (A) that the grantee desires Division approval for the program change described in the request letter;
 - (B) the specific nature of the proposed change;
 - (C) why the change is needed; and
 - (D) any impact that the change will have on the project's operation or its budget.
- (3) Division Review of Proposed Program Changes
 - (A) The Division shall accept and review proposed program changes at any time during a project year. The Division shall normally notify the grantee within 30 calendar days from the receipt of the request regarding its approval or disapproval of the request. If a decision cannot be reached within 30 days, the Division shall notify the grantee as to the date by which it expects to reach a decision.
 - (B) Division of Aging approval of a program change request shall be the form of a letter authorizing the grantee to initiate the change. No changes in program operation shall be made until the written approval is received by the grantee.
 - (C) Division of Aging Determination of Amendments or Changes
 - (i) Grantees shall provide written notice of proposed revisions to the Division of Aging in order for the Division to determine whether a revision is in fact a program amendment or program change and subject to the provisions of this Section. Such notice shall be in the form of a letter briefly outlining the proposed revision.
 - (ii) Within 15 calendar days after receipt of the grantee letter, the Division shall inform the grantee in writing as to whether it concurs that the proposed revision is a program amendment or a program change. If the Division finds that the proposed revision is not a program amendment or a program change, the grantee may proceed to implement the proposed revision. If the Division determines that the proposed revision is a program amendment or a program change, the grantee shall go through the procedures outlined in this Section.

SECTION .0200 - OBTAINING FUNDS

10A NCAC 05D .0201 REQUESTS FOR FUNDS

Federal funds under the Older Americans Act are awarded by the administration on aging to the state. The Division of Aging, the single unit on aging for the State of North Carolina, distributes all payments to grantees. The Division of Aging has established a system for disbursing Older Americans Act funds to grantees which is based upon requests from each grantee. Requests must be based on actual cash needs. The Division of Aging's request and payment system is described below:

- (1) Requests may be made on a reimbursement or an advance basis, except for USDA cash reimbursement which is made only as a monthly reimbursement. Normally, requests are made monthly. Advances may be made for only one month at a time.
- (2) To request funds, a grantee must complete a "Request for Payment of Federal Funds" form.
- (3) In completing the appropriate "request for payment" form, each grantee shall carefully evaluate its cash needs. Both its cash requirements and cash balance on hand should be considered in analyzing the amount of funds actually necessary, as opposed to requesting 12 equal payments during the year. If a request appears inconsistent with the need for funds, the Division of Aging may require an adjustment in the amount of the request.

- (4) Requests for payment shall be completed and sent to the Division of Aging by the tenth working day of each month. If a request is late in arriving at the Division of Aging, payment may be delayed until the following month unless the delay was due to circumstances beyond the control of the grantee.
- (5) The Division of Aging shall examine each grantee's performance and fiscal reports prior to payment of funds. If significant differences from the approved area plan are noted, payment will be delayed until the differences are resolved.
- (6) Funds disbursed to grantees by the Division of Aging shall be deposited and handled according to the accounting procedures and standards specified by the Division.

In-kind used by the grantee as match shall also be documented at the time the requested funds are received.

No additional grant funds beyond the amount specified on the notification of grant award will be available to the grantee unless additional funds are available to the Division of Aging, a budget revision request is submitted to the division and subsequent notification of grant award is executed by the division and the grantee.
- (2) If at any time during the year the Division of Aging determines that Older Americans Act funds are being expended improperly, the division may require the grantee to cease incurring costs under the Older Americans Act. Ineligible or other improper expenditures must be reimbursed to the Division of Aging. Under such conditions, the division will notify the grantee regarding the action being taken, the reasons for the division's actions, and the conditions and time framework for corrective procedures to be made.

10A NCAC 05E .0103 COMMENCEMENT OF A DIVISION HEARING: PETITIONS

(a) In order to commence an administrative decision review hearing with the Division, a petition must be filed in accordance with these Rules. The petition must be in writing, and must be signed by the aggrieved person submitting the petition or by the person's designated representative. A petition must contain the name, address and phone number of the petitioner, as well as his representative if one is designated. If a representative is designated, notice of meeting dates, requests for information, hearings decisions, etc. will be sent to the representative rather than the aggrieved person, unless the petition otherwise requests. The party who files a petition shall simultaneously serve a copy of the petition on all other parties and shall file a certificate of service together with the petition. Any petition filed by a party other than an agency shall be verified or supported by affidavit and shall state specific facts which tend to establish that the respondent has substantially prejudiced the petitioner's rights and has failed to act as required by law, rule or procedure.

(b) In addition to any pertinent requirements stated elsewhere in these Rules, a petition filed with the state Division of Aging must contain specific factual allegations which tend to establish that the petitioner is:

- (1) a service provider whose contract or subgrant under an area plan has been terminated by an Area Agency on Aging in violation of applicable federal or state statutes, rules, policies or procedures, or Area Agency protest procedures; or
- (2) an eligible applicant who seeks to provide service under an area plan and whose application has been denied or rejected by an Area Agency on Aging in violation of applicable federal or state statutes, rules, policies or procedures, or Area Agency protest procedures; or
- (3) an applicant eligible for designation as a planning and service area in the state whose application has been denied by the state Division of Aging; or
- (4) an Area Agency on Aging whose area plan or plan amendment intends to be disapproved or whose designation intends to be withdrawn by the state Division of Aging; or
- (5) a service recipient who has been discriminated against in violation of federal or state law on the basis of age, race, color, national origin, sex, religion or handicap in regard to delivery of Older Americans Act services by a contractor or subgrantee, or in regard to administration of such services by an Area Agency on Aging.

(c) All petitions shall contain a statement of the relief sought by the petitioner. Petitioners who seek an administrative decision review hearing with the state Division of Aging must so state in their petition. However, the formal hearing process may be waived and informal disposition may be made at any time by the parties regarding any issues in the petition. Issues not addressed in the petition shall not be considered in the state hearing process and shall not be the subject of relief. Issues and facts may be dealt with by stipulation, agreement or consent order at any time by the parties. Petitions which are improperly filed, or which fail to contain proper subject matter, may be subject to denial of formal review.

(d) Only those persons listed in Paragraph (b) of this Rule may petition for an administrative decision review hearing with the state Division of Aging. Petitioners under Subparagraphs (b)(1), (2) and (5) of this Rule shall file their respective petitions within 60 days following the date on which a final adverse decision has been rendered against them by an Area Agency on Aging. If no petition is filed within the respective 60 day period, the Area Agency's action shall become final. Eligible applicants under Subparagraph (b)(3) and agencies under Subparagraphs (b)(4) of this Rule shall file their petitions within 60 days after notification of denial or intention, respectively. If no petition is filed within the 60 day period, then the Division's action shall become final. Petitioners shall exhaust all available administrative remedies before petitioning the Division of Aging for a decision review hearing.

(e) Decisions or actions taken by the Division which substantially prejudice a person's rights, duties or privileges, but which are not listed in Paragraph (b) of this Rule are not proper subject matter for Division hearings and should be submitted in a separate petition to the Office of Administrative Hearings in accordance with 10A NCAC 01 and 26 NCAC 03 .0103. Decisions or actions taken by an Area Agency on Aging which are not listed in Paragraph (b) of this Rule are not proper subject matter for Division hearings and, subject to the expression or implication of private rights of action by state or federal law, should be contested in a court of law. Subject to the discretion of the Division hearing officer, improper subject matter in a petition may either be deleted or form the basis for dismissal of the entire petition.

(f) After service of a final written decision upon the parties, if a party, other than an "applicant" in Rule .0103(b)(3), disagrees with the Division review hearing decision, the party may request a contested case hearing in accordance with

26 NCAC 03 .0103 and 10A NCAC 01 within 60 days of said service. For purposes of notice, 26 NCAC 3 .0103 and 10A NCAC 01 are incorporated herein by reference pursuant to G.S. 150B-14(c).
